Natural spring water runoff causing damage?

Scott: some have went and walked the area - about thirty feet off the road is a huge wet spot – walked half way up the hill – pretty dry – came back down where ferns are is very wet and marshy – it is our property. Mr. Cordia says gets water in his basement not coming in over wall, is seeping in bottom of wall.

Contractor maybe dig down and put a drain across top of road running it over to the side of road to a catch basin. Discussed the length of drain.

Scott asked if maybe mow or cut out weeds to possibly be able to see were water comes from and then maybe have a better idea of were to fix.

Jeremy suggested a catch basin at the top of road then fingers out to drain.

Mayor asked are we giving them something in writing that we are going to fix the problem.

Was asked if can give them a letter that we are going to try and fix it but can't give a guarantee.

Jeremy feels should fix because it is our property and should fix it.

A motion was made that will give resident a letter stating we are going to try and find a solution for the draining issue from natural water runoff by Anthony and seconded by McCray. VOTE: ANTHONY YEA, MCCRAY YEA, KNIGHT YEA, AND DIERICK YEA. Motion carried.

Hillside basin is gone and Shane St needs replaced/repared.
